- Monster Climate Petition -

TO THE HONOURABLE THE SPEAKER AND MEMBERS OF THE HOUSE OF REPRESENTATIVES

This petition of Australia's daughters and sons, parents, grandparents, godparents, aunts and uncles, draws to the attention of the House the damage to the earth's climate and its oceans from humanity's continuing and increasing carbon emissions and the consequent severe risks to the future health, safety and well-being of our children and our children's children and future generations.

We remind the House that it is the fundamental duty of parliament, including this House, to protect Australia's people, land and seas.

We therefore ask the House to respect the science and build a safe climate future for our children and grandchildren and generations to come by enacting immediate and deep reductions to Australia's carbon emissions. We also ask the House to commit to and actively promote and support global strategies for immediate and deep reductions to global emissions at every designated international forum.
